speedART GTS-R: Carpe Viam!

Use the road!

speedART GTS-R

The speedART GTS-R is based on the Porsche 911 Type 992 and, like its predecessors 997 and 991, is a combination of a sports car suitable for everyday use and a fascinating track tool. The combination of agility, functionality and emotionality leads to an unforgettable driving experience in the speedART GTS-R.

The combination of sophisticated technical innovations paired with exciting design elements offers the opportunity to experience a sports car in a class of its own. Building on a perfect basis, the modifications made by the tuner speedART make the Porsche 992 even more individual, unique and unmistakable.

Give your Porsche your personal touch: with the speedART tuning and customization program.

The speedART GTS-R: Carpe Viam! (Use the road!)

„Thinking and being are determined by contradiction.“
Aristotle

Aerodynamic SP92-R

SP92-R front chin spoiler

SP92-R front chin spoiler, fits the original front bumper, for a more dynamic look and more downforce

speedART side skirts (sporty design and improved aerodynamics for all 992)

Painting and fitting

Art. Nr.: SA.P92.SSW.XX
Art. Nr.: SA.P92.SSW.XXUM

Suspension

Optimum transmission, high cornering speed, controllable at the limits and a safe driveability.

Sportive or comfortable! We do the setup like you wish. Modern suspensions with active controlled systems are offering still an optimizing of driveability because the most series suspensions are a compromise of sportive and comfort.

We can offer you various opportunities from comfortable suspension to complete adjustable coilover systems.

A brilliant cooperation between our development partner and test drivers is setting us in the lucky position to go on moving the limits of driving physics in your favor.

*„Believe those who seek the truth and doubt those who have found it.“
Andre Gide*

Suspension

Adjustable sport springs for 992 Carrera/S/GTS

adjustable height

survey and fitting

Art. Nr.: C92.KW.GF.XX

Spacers

Many different sizes for all OE- and tuning-wheels available. Details on demand..

Wheels

Form follows function or reversed, just how you wish. Give your car an individual taste.

No matter if one piece forged or modular. Between different variants and types can be chosen.

Also we can offer individual paint jobs or powder coatings of wheel center, wheel lip and wheel bed in various colors. For sportive and race driving we have weight reduced wheels in our product range.

Another enhancement in value you can reach with our harmonic wheel designs. Strong contours or smooth curves are creating a special and personal appearance of your car and highlight the claims of sportive elegance.

„The normality is a paved street, you can go well on it, however, there grow no flowers on her.“

Vincent van Gogh

Engine: performance & sound

VTG = Variable - Turbine - Geometry. Additional performance based on the latest technology and the height of the action.

The modified VTG turbochargers ensure power in every situation.

Compared to the conventional turbocharger concept, the VTG technology delivers torque like never before even in the lowest engine speed range, thus ensuring even power delivery across almost the entire engine speed range. All components such as transmission, clutch and engine are coordinated in such a way that maximum power is available at all times.

In interaction with aerodynamics, chassis, rims, tires and brakes, breathtaking driving dynamics values are created.

„The whole thing is more than the sum of its parts.“
Aristotle

Interior

Fabric, leather and microfiber and also carbon, stainless steel, aluminium and wood. In combination with entertainment and multimedia. Various forms and colors in any thinkable version.

Also here the best materials are used and technology on the newest state of the things. No matter whether tone in tone, Bi-color or a mix from the respective materials, in creating the interior there are nearly no borders placed.

In the course of the years all this only became possible by an intensive collaboration with the most different companies who have specialized themselves in individualizing interiors.

Here it is exclusively pure manual labour and the standards in quality and processing are exceptionally high. Please notice that a listing of all products and variations in the interior is in this prospect not possible because of the large amount of opportunities.

Please send us your enquiry direct to info@speedART.de. We will send you as soon as possible our response and a detailed offer.

„Temptations you should give in. Who knows if they come back!“
Oscar Wilde
