price: 1.350,- €

Art. Nr.: SA.TAY.TLM.XXUM

price: 396,- €

Wheels

Form follows function or reversed, just how you wish. Give your car an individual taste.

No matter if one piece forged or modular. Between different variants and types can be chosen.

Also we can offer individual paint jobs or powder coatings of wheel center, wheel lip and wheel bed in various colors. For sportive and race driving we have weight reduced wheels in our product range.

Another enhancement in value you can reach with our harmonic wheel designs. Strong contours or smooth curves are creating a special and personal appearance of your car and highlight the claims of sportive elegance.

„The normality is a paved street, you can go well on it, however, there grow no flowers on her.“

Vincent van Gogh

speedART wheel range

speedART wheel range for all Taycan from 19" to 22"
in various design variants on request.

Aerodynamics

speedART aerodynamics for Porsche Taycan, e.g. front and rear spoiler as well as other parts on request.
